A Message to the Graduating Students from the Members of the Calgary School Board

As you now bring to a close your student life in the Calgary Public Schools, the members of the Board wish to express their pride in your achievements and their hope that the training you have received through the cultural, social and athletic activities of your school will enable you to adjust yourselves effectively to the varied requirements of adult life.

You need to be friendly and able to cooperate if you are to fill the role of homemaker successfully. You should be reliable, industrious and alert if you are to be proficient in your job. You must be just, honest and courageous if you are to play the part of a good citizen. Life in a democracy such as ours will make insistent and unpredictable demands upon you, and the Board of Trustees is hopeful that in the years you have spent in the Calgary schools, you have developed the attitudes and abilities that will enable you to respond successfully to all its opportunities and obligations.
